

### NEW ONE-WAY TOURING ROUTE

For social distancing purposes, the zoo has implemented a one-way route for visitors to follow in order to see all open (outdoor) exhibits while maintaining at least 6 feet of space between your party and other zoo-goers.

Visitors will enter the zoo at the main entrance, check in with membership or admission staff to scan your reservation and proceed to the left up the ramp along the gift shop windows and out the doors to the courtyard. Follow the signs to the left of the waterfowl pond to start your tour of the Wildlife Trail at Primate Park and walk the trail in a clockwise direction around the loop, ending at the domestic animal barnyard. Then re-enter the zoo building via the door at far left, past the restrooms and down the left side of the ramp to exit through the doors to the left of the membership desk.

**Visitors will be expected to keep moving, pausing only briefly to view animals, and maintaining a distance of at least 6 feet between parties.**
